REPORT NARRATIVE (REFERENCE STIPULATIONS BY NUMBER OR TITLE)

Rody Cox and I drove to Paul Buhanan's claims to see if there had been any activity since the last inspection on 4/22/91. There was no sign of any recent mining activity. There was still debris and trash around the cabin, and no new assessment notices had been posted on the door. There was no obvious evidence that the cabin had been used since the last inspection.
